Dear Students,

The District is supportive of Driver's Education for students and will be offering post-completion scholarships to students who participate in a Driving Program. A post-completion scholarship will reimburse the student for all but \$50 for the program. The student will pay the entire cost upfront, then be reimbursed.

To be provided with the post-completion scholarship the student must bring a copy of their certificate and proof of payment to the Business Office after they have successfully completed the program.

Driver's Education completed through an outside Driving School will count as a .5 transfer elective credit, but it will not count towards the child's GPA/QPA. In order for a student to receive this credit, the student must submit a copy of their Certificate of Completion of the course to the guidance office.

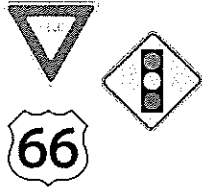

Information related to Driver's Education through Brant's Driving School is attached to this letter.

Yours in Education,

Misty Demchak
