

ROCK

Dec 4 - 8, 2023

ROCK students work on either Odysseyware independently or a google classroom for individual instruction.

In Algebra 2 ROCK, a student is working on compound inequality solving and graphing for 2 days and then solving for y and graphing linear inequalities.

Monday & Tuesday: Complete the Puzzletime Worksheet

Wednesday: Student Journal complete on graphing linear inequalities with slope and y intercept review then shade.

Thursday & Friday: Use worksheet Practice A
